Old Business:

The bridge to the Maples 13 tee area becomes very slippery when wet.

Response: This problem will be corrected. Safety strips will be place on every board down the entire side of the bridge and signage advising *slippery when wet*.

New Business:

Upgrade yardage signs at the driving range.

Response: A general upgrade to the driving range is planed, which could include additional targets and possibly a fairway trap.

Pot bunkers on the 15th Jones lack sand.

Response: Those traps are on the list for drainage improvement and adding sand.

Cart path on the 4th Jones damaged from condo construction.

Response: Cart paths will receive minor repairs.

Progress report 3rd Byrd.

Response: The bridge work should be completed by the end of the week. The new tee boxes will be ready for play by the 1st of August. The Red Tee will be across the water and to the left of the bridge. Until all work is completed and the new tees ready for play the 3rd hole on the Byrd will play as a par 4 with the White and Gold Tees placed across the water and to the left of the bridge. The Byrd Course will play as a Par 71 during this period.

Red tees 2nd Byrd.

Response: The sod will be replaced.

Open Discussion:

The path to the Red Tee on the Maples 17th hole. Would stepping stones be possible? Would a better path be possible? As of now maintaining the mulch to keep it safe will be the answer. Other options will be looked into.

Next meeting July 9, 2007, 2:30 pm

Respectfully submitted,
Ron Dubas
